*\$500 Best Deal Guarantee payable upon proof of quote in writing from another structured settlement factoring company and paid to customer upon the funding of the transaction. One counter-offer per customer.

Here's how a Woodbridge Structured Payments Transaction works:

After we receive all the required paperwork from you, our attorney will file a petition for court approval. Once the court approves the transaction, you will receive your lump sum payment. This process usually takes between 45 to 90 days, depending on the state where you reside. Don't worry, if you're missing any of the key documents – we will help you get them.

How much cash will you get?

That depends on the number, frequency, and amount of your payments. We are always happy to provide a free evaluation and a reliable quote of what all or part of your future payments are worth today. And we're proud of our well-earned reputation of consistently providing among the highest payouts in the industry.

Do I need to sell all of my payments?

Not at all! You can sell 3, 5, or 10 years of payments for a lump sum. Or you can sell a percentage of each payment (for example, 50% of your next 20 payments). You can even sell a single payment due at a specific future date. That's another reason why it's important to talk to a Woodbridge Structured Funding advisor. He or she will take the time to review your particular situation – and structure a lump sum payment transaction that best fits your needs.
